WHO WE ARE

About Us

Rivaya specializes in Contracting, Electro-Mechanical, Technology and Power. Driven by a shared vision and values, and inspired by a spirit of innovation, our highly qualified and experienced technical team has earned its place at the core of major projects across the Kingdom of Saudi Arabia.

In a short span of time, we have delivered a wide range of private and government projects spanning contracting, supply and systems integration — covering design, procurement, installation, commissioning, operation and maintenance of new systems, alongside the upgrade and support of existing ones across multiple sectors.

By combining this broad spectrum of expertise with a highly trained team of specialists, we deliver system-based, turnkey solutions that are performance-driven, cost-effective and refreshingly straightforward — the signature quality that has earned our clients' trust.

WHAT DRIVES US

Vision, Mission & Values

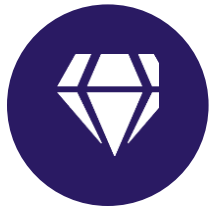

Vision

To maintain and grow our presence as a leading contractor in the market — a reputation built on trust, delivered through innovative applications of engineering capability and technology.

Mission

To provide a level of service that exceeds our clients' expectations, uphold the highest standard of quality, and give our people the opportunity to grow — managing every project, large or small, with professionalism.

Values

Honesty, integrity and dedication in our work — delivering on time, every time, without compromising on quality.

BUILT IN-HOUSE

Our Capabilities

Rivaya is a customer's best choice for satisfying every project need — delivering all planning requirements in-house through three specialist groups, each staffed with area experts and clear field capability.

Contracting & MEP Group

Value engineering across civil, electrical and mechanical works — without compromising safety or quality.

Technology Group

ELV, security, networks, biometrics and audio-visual systems engineered for real performance.

Power Group

UPS, data centers, electromechanical works and renewable energy solutions built to scale.

EFFICIENCY

Doing the right thing, the right way, at the right time.

Cost-Effectiveness

Maximizing the use of our resources and intellectual assets.

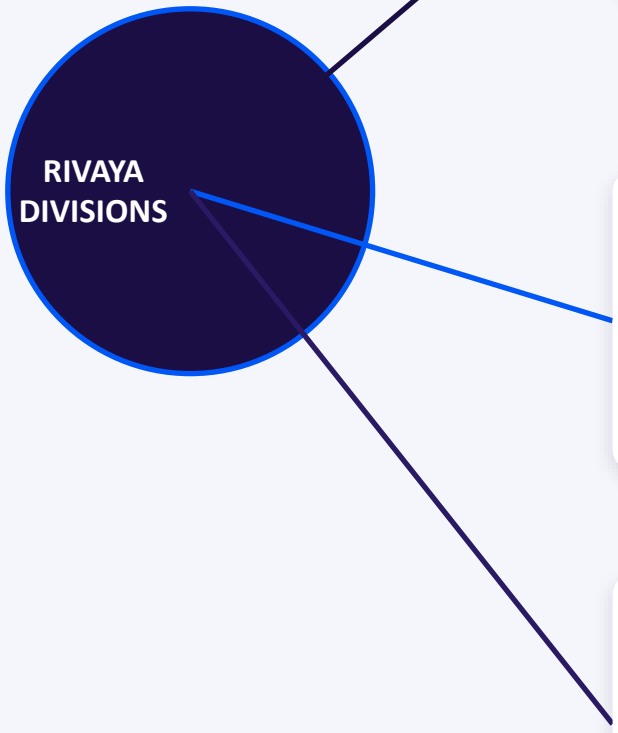

Sound Business Processes

Well thought-through processes that optimize cost, speed and quality.

High-Performance Workplace

Effective support that grows skills across a diverse workforce.

Our Divisions & Services

Contracting & MEP

- General Contracting & Design
- Infrastructure & Roads
- Electromechanical Works

Technology

- ELV & Integrated Security
- Network Integration Systems
- Biometrics & Audio-Visual

Power

- UPS Systems
- Data Center Solutions
- Renewable Energy

TECHNOLOGY GROUP

ELV, Security & Network Systems

From low-current systems to integrated security, network infrastructure, biometrics and audio-visual environments — tailor-made solutions backed by years of ingenuity and experience.

ELV & Integrated Security

Design, supply, installation and O&M of turnkey security systems.

Network Integration

The right network strategy for a well-connected, always-on business.

Biometrics Systems

E-passport, ID, border control and banking-grade biometric technology.

Audio-Visual Systems

Theatres, auditoriums, conference centers and mission-critical AV.

POWER GROUP

Power & Data Center Solutions

Backed by world-class technology and manpower, Rivaya delivers state-of-the-art power systems, resilient data centers and renewable energy solutions across medical, financial and airport-oriented operations.

UPS Systems

Uninterruptible power that keeps network closets, server rooms and data centers running.

Data Center

Design consultancy, product selection and tailor-made solutions with disaster recovery.

Electromechanical

Reliable execution from design to commissioning across every E&M discipline.

Renewable Energy

Solutions engineered to the highest benchmarks of quality, safety and performance.

TRUSTED BY GLOBAL LEADERS

Technology Partners

We team with world-class manufacturers to design and deliver best-in-class, product-independent solutions across security, networking, power and data infrastructure.

- HONEYWELL
- SCHNEIDER ELECTRIC
- BOSCH
- CISCO
- AXIS COMMUNICATIONS
- EATON
- VERTIV
- MILESTONE SYSTEMS
- DELL TECHNOLOGIES
- MICROSOFT
- SAMSUNG
- HP ENTERPRISE

WHERE WE DELIVER

Sectors We Serve

From government institutions to hospitality, banking, healthcare and telecom — Rivaya brings integrated engineering and technology solutions to clients across the Kingdom.

Government Agencies

Healthcare Firms

Banking Sector

Hospitality

Telecom Operators

Infrastructure & Roads

Our Experience

King Fahad Medical City — Riyadh

8 buildings, integrated CCTV, access control, 2,144+ structured cabling points and full SOC/NOC control rooms.

Al-Masjid Al-Haram Expansion

Supply and execution of electromechanical works across all Mosque expansion phases.

King Abdullah Int'l Conference Center

680-point IPTV system with full infrastructure design, supply and deployment.

Golden Tower — Jeddah

CCTV, access control and elevator integration across 48 floors.

Gulf International Bank

Interactive digital banking experiences deployed across 15+ retail branches, KSA, Bahrain & UK.

Saudi Telecom Company

Highly available, geographically distributed core DHCP infrastructure, kingdom-wide.

WHY CHOOSE US

Why Rivaya

In-House Capability

Every planning need met internally — no outsourcing, full accountability.

Turnkey Solutions

Performance-driven, cost-effective delivery from concept to completion.

Quality-Led Delivery

An integrated quality management system underpins every operation.

Skilled Technical Team

Highly qualified specialists trained across every service line.

Kingdom-Wide Reach

A trusted delivery partner for projects across Saudi Arabia.

Client-First Ethics

Confidence built with every stakeholder through professional management.

OUR PEOPLE

We consider our employees our most valuable asset — prioritizing their health, safety and growth in every environment we operate in.
